FEBRUARY 2025
THANK YOU!**

JUBILEE YEAR "PILGRIMS OF HOPE"

As we join the global Catholic Church in celebrating the Jubilee Year, "Pilgrims of Hope," we are invited to mark this special time of grace and renewal in unity and prayer.

THE JUBILEE PRAYER

Father in heaven,
may the faith you have given us
in your son, Jesus Christ, our brother,
and the flame of charity enkindled
in our hearts by the Holy Spirit,
reawaken in us the blessed hope
for the coming of your Kingdom.

May your grace transform us
into tireless cultivators of
the seeds of the Gospel.

May those seeds transform from within
both humanity and the whole cosmos
in the sure expectation
of a new heaven and a new earth,
when, with the powers of Evil vanquished,
your glory will shine eternally.

May the grace of the Jubilee
reawaken in us, Pilgrims of Hope,
a yearning for the treasures of heaven.

May that same grace spread
the joy and peace of our Redeemer
throughout the earth.

To you our God, eternally blessed,
be glory and praise for ever. Amen

Franciscus

POTLUCK

Epiphany Reminds Us That All Creation Is Moved by God

[Philip Kosloski](#) - Published on 01/06/24

The star that appears over Jesus' birthplace is a reminder that the created world is not random, but guided by God himself.

The Catholic Church affirms that the entire universe is not a product of chance, but a fruit of God's love for humanity. The feast of Epiphany reminds us of this belief, as Pope Benedict XVI points out in his [2009 homily](#):

The divine and universal law of creation is divine love, incarnate in Christ. However, this should not be understood in a poetic but **in a real sense**. Moreover, this is what Dante himself meant when, in the sublime verse that concludes the *Paradiso* and the entire *Divina Commedia*, he describes God as "the Love that moves the sun and the other stars" (*Paradiso*, xxxiii, 145).

Benedict XVI firmly believed that the universe was not random, but guided by the hand of God:

This means that **the stars, planets and the whole universe are not governed by a blind force**, they do not obey the dynamics of matter alone. Therefore, it is not the cosmic elements that should be divinized. Indeed, on the contrary, within everything and at the same time above everything there is a personal will, the Spirit of God, who in Christ has revealed himself as **Love** (cf. Encyclical *Spe Salvi*, 5).

When the star hung over Jesus' birthplace, it highlighted the fact that all of creation "orbits" around God, and gives praise to him.

Epiphany is a beautiful feast in the Church's liturgical year, challenging us to see creation in a new light and how that light can lead us closer to God.
